MSA Supreme

Digital electronic 'level dependant active listening' slimline headsets used for hunting and shooting.

Hearing protection, amplification and communication -multifunction hearing protection.

MSA Supreme headsets are developed to conform to international MIL-specifications and other extreme conditions.

Superb sound quality and high amplification actually lets you hear better when wearing the headset.

The Supreme range enables users to carry out normal conversation with friends or colleagues whilst gunshots are reduced to harmless and comfortable levels.

- Digital electronics compress sound without chopping
- Waterproof battery compartment and microphones (Pro X)
- Slim design for both right and left handed shooters
- Over 600 hours of battery life from 2 x AAA batteries (not basic model)
- Battery save function and low battery warning system
- Headband and neckband versions

Supreme Basic

- Analogue electronics
- 300 hours battery life
- Battery save feature
- Available in green
- Fabric headband
- Available with or without AUX audio input

Supreme Pro IV

- Digital electronics
- 600 hours battery life
- Battery save feature
- Available in green, black and sand
- Leather headband
- AUX audio input

Supreme Pro IV Neckband

- Digital electronics
- 600 hours battery life
- Battery save feature
- Neckband allows the headset to be worn under helmets
- Available in green, black and sand
- AUX audio input

Supreme WW

- Digital electronics
- Bluetooth enables wireless connection to most GSM phones
- Noise-cancelling microphone enables communication in noisy areas
- 600 hours battery life
- Battery save feature
- Available in green
- Leather headband
- AUX audio input

These headsets can be connected to the SWATCOM 1 and 2. See pages 6-7.

5 year warranty

MSA CC Supreme

Digital electronic 'level dependant active listening' headsets for connection to two-way radios used for Military and Police type applications.

Hearing protection, amplification and communication -multifunction hearing protection.

MSA CC Supreme is developed to conform to international MIL-specifications and other extreme conditions. Close fitting cups with either headband or neckband allows the headsets to be used with most types of ballistic helmets. Splashproof and waterproof versions available.

The Supreme headsets are widely used by military and police forces around the world.

- Digital electronics compress sound without chopping sound
- Two separate waterproof microphones reproduce ambient sound within the headset
- Close fitting slim design
- Rugged noise-cancelling boom microphone
- Over 600 hours of battery life
- Two sets of audio speakers ensure the headset always has live communication with two-way radio
- Fitted with 4-pole TP120 Nexus connector (others available on request)

CC Supreme MIL-Spec

- Digital electronics
- 600 hours battery life
- Battery save feature
- Waterproof external microphones
- Two sets of audio speakers
- Noise-cancelling microphone enables communication in noisy areas
- Rugged down lead with TP120 connector (others available)
- Available in black and sand
- Leather headband

CC Supreme MIL-Spec with neckband

- Digital electronics
- 600 hours battery life
- Battery save feature
- Neckband allows headset to be used with ballistic helmets
- Waterproof external microphones
- Two sets of audio speakers
- Noise-cancelling microphone enables communication in noisy areas
- Rugged down lead with TP120 connector (others available)
- Available in black and sand

CC Supreme Submersible

- Digital electronics
- 600 hours battery life
- Battery save feature
- Neckband and headband versions
- Headset is fully submersible
- Two sets of audio speakers
- Noise-cancelling microphone enables communication in noisy areas
- Rugged down lead with TP120 connector (others available)
- Available in green

PTT options

SWATCOM 1

- Rugged, waterproof and dust tight for harsh environments
- Works with most makes/models of portable two-way radios and TETRA handsets
- Single and dual radio options
- Silent and tactile switch options
- Auxiliary PTT's
- Available with Nexus, Lemo and SWATCOM connectors
- Modular design for easy 'Plug and Play' operation
- Large, easy to locate Push-to-Talk button
- 360° crocodile clip for easy attachment to clothing

SC1 Auxiliary PTT (Press-To-Talk) options

The SWATCOM 1 also allows for connectivity with two types of remote Push-to-Talk; the SWATCOM 16 Velcro Switch and the SWATCOM 17 Ring Switch (both shown below).

SC16

SC17

Nexus PTT 2000

- Rugged, compact, durable design
- Works with most makes/models of portable two-way radios
- Crocodile clip for easy attachment to clothing

SWATCOM1

The SWATCOM 1 (Modular Accessory PTT) can be configured to attach to virtually any portable two-way radio. The SWATCOM 1 is ATEX approved, totally waterproof and dust tight. The unique "Quick-Release" connector allows the PTT to be attached to any of the SWATCOM communication devices. This adaptability allows the same system to be tailored to a specific user workplace environment or operational needs.

The wide range of headset options allows it to be used in virtually any situation. From explosive atmospheres to high noise, face masks, protective suits and beyond, the SWATCOM 1 is part of the most flexible, adaptable and unique radio accessory solution on the market today.

Choose from a wide range of headsets, throat microphones and audio earphones.

SWATCOM1 Radio Accessory Base Unit (available with either silent or clicking switch)

The SWATCOM1 is a heavy-duty waterproof and dust tight Press-To-Talk switch that incorporates the communication radio lead and enables modular connection to various SWATCOM headset options.

SWATCOM1 with Switch Guard

Switch guard ensures the PTT does not get depressed accidentally when being worn under clothing or protective suits.

SWATCOM2

This unique throat mic and PTT (Push-to-Talk switch) was designed specifically for Military and Law Enforcement users who want a reliable accessory for voice communication that is streamline, easy to use and can be adapted in the field, for a variety of operational scenarios.

The PTT switch on the SWATCOM 2 is located on the rear of the throat mic housing under the strap. By pressing the PTT switch the user ensures a solid connection between the throat and the microphone element. Additionally the SWATCOM 2 contains breakthrough technology that is revolutionary in throat mic design. It also has the ability to function with digitally encrypted radio networks.

- Connects easily to Supreme headsets
- Slimline and covert
- Easy to locate Push-to-Talk button
- Use with any make or model of face mask or breathing apparatus
- Waterproof & dust tight
- Connects to most makes/ models radios
- Multiple speaker & headset options for added versatility
- PTT rated for 500,000 cycles

Neck band Supreme can be used with numerous types of helmets.
