

**MSA V-Gard Systems,
the ultimate in comfort and protection**
[the safety helmet of choice]

V-Gard

- The popular V-Gard design in a High Density Polyethylene shell.
- Accepts the full range of MSA safety helmet accessories.
- Available in High Visibility fluorescent orange as well as the standard range of colours.
- A small size is also available.
- Certified to EN 397 and meeting optional requirements for electrical insulation and very low temperature.

Super V-Gard II

- Premium Quality finish ABS moulded shell.
- Accepts the full range of MSA safety helmet accessories.
- High impact protection and chemical resistance.
- Superior fit and enhanced wearer comfort.
- Certified to EN 397 and meeting optional requirements for lateral deformation, electrical insulation, very low temperature.

Linesman

- Peakless version of the premium quality Super V-Gard II.
- Accepts the full range of MSA safety helmet accessories.
- For use when unrestricted upward vision is important.
- Perfect for confined spaces, or any high level work.
- Fits very well under total encapsulating chemical suits.
- Certified to EN 397 and meeting optional requirements for lateral deformation, electrical insulation, very low temperature.

ThermalGard

- Lightweight and high strength helmet.
- Accepts the full range of MSA safety helmet accessories.
- Shell of glass-reinforced nylon.
- For use when elevated temperature capability is needed.
- Protects from impact hazards and low-voltage levels.
- Certified to EN 397 and meeting optional requirements for lateral deformation, very low temperatures and molten metal splash.

Harnesses

- Fas-Trac harness with quick action ratchet wheel adjustment for ultimate in safety helmet comfort.
- Staz-On harness has a slide adjustment designed for added stability.

Chinstraps

- Adjustable chinstraps, available in nylon webbing or elastic, add extra security when working at height or in high winds.

Logo Service

- Helmet Logo's quickly and effectively promote your corporate image.
- High quality, multi-coloured Logo printing service provided by MSA.
- Encourages wearer acceptance.
- Front, side or rear of helmet printing for high visual impact.

Sound Blocker Cap

- Highest levels of protection when working in noisy areas.
- Strong spring housing structure for durability.
- Adjustable arm with unique pivoting ear cup ensures perfect fit and comfort.
- Soft, slow-recovery sealing cushions assure comfort and protection with a reduced surface pressure and excellent seal.
- Certified to EN 352-3.
- Very easy assembly to all MSA safety helmets.

SlimPro Cap & SlimPro Plus Cap

- Ultra slim design.
- Extremely lightweight helmet and ear muff combination.
- Strong spring housing structure for durability.
- Very easy assembly to all MSA safety helmets.
- The Plus model has a specially designed insert plate between the ear cup and cushion giving a higher level of protection than the SlimPro model.
- Certified to EN 352-3.

Winter Liners

- Designed to give extra protection during cold and wet weather.
- Perfect for workers in large refrigeration plants.
- Available in various materials and designs to suit all applications.
- Winter liners can be removed easily from the helmet for washing/drying.

Face shields

- Moulded-in slot on all MSA helmets provides easy mounting of face shields.
- Compatible with all MSA helmet mounted hearing protectors.
- Polycarbonate or acetate visors for a wide range of applications.
- Robust, mesh visor for forestry and sawmill applications.
- Chin guard option available for added neck protection.
- All visors certified to EN 166.

Stow-away Visor

- Fully integrated head and eye protection.
- Stows away inside the helmet when eye protection is not required – protecting the visor from damage.
- Extremely comfortable, with no pressure points behind the ears – cannot fall off.
- Compatible with all MSA helmet mounted hearing protectors.
- Certified to EN 166, class 1F.

Neck Capes

Neck capes provide protection from:

- Wind and rain.
- Dust and debris.
- Liquid splash.
- Also available in flame resistant Nomex material.

MSA Safety Helmets are the Helmets of choice!

[Make them your choice]

The MSA V-Gard is worn by people on every continent of the globe and with a proven track record has become the helmet of choice for millions of workers all over the world. Whether you are in Buenos Aires, Argentina; Beijing, China; Sydney, Australia or Rome, Italy, you will always find the unmistakable silhouette of

the MSA V-Gard on construction sites, power plants and factories wherever workers need reliable head protection from falling objects. With over four decades of experience in the development and manufacture of safety helmets and head/face protection systems, MSA has the ability to meet all your

needs. Our programme of continuous development also means that we will continue to meet all your future needs, because we ask you. Without your input, you wouldn't be wearing the ultimate in comfort and protection – the MSA V-Gard and Super V-Gard II, the Safety Helmet of Choice.
