

Whisper series lightweight headsets.

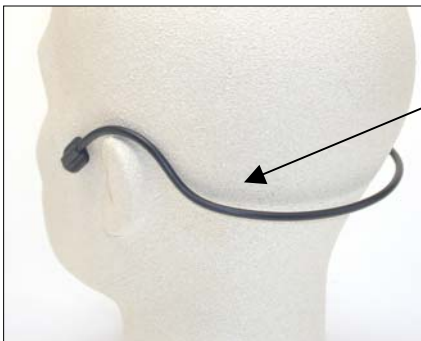

Whisper headsets for two-way communications. Connection to Motorola, Icom and Kenwood hand portable radios (other models available on request). Behind-the-head neckband ensures the headset will not fall off when running or during other physical activities.

- Noise cancelling flexi boom microphone ensures clear concise communication
- Microphone flicks-up out of the way when not in use
- Twin earpieces or single earpiece versions
- Heavy duty cables for excellent durability
- Easy-to-use in-line PTT (press-to-talk) with cable clip
- Versions to suit most radios

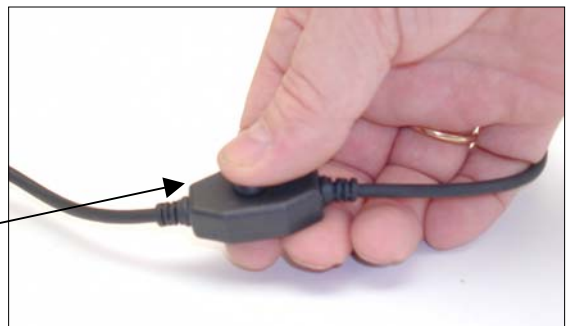

Code: W3000-****(dual earpieces with neckband)
