

A-KABEL AS

Headset & PTT for Airband Radios

ICOM A6/A24

Walter Dittel FSG4/5

The A-KABEL headsets and PTT's are for use in high-noise environments on Helidecks and Airports where critical communications is paramount.

Manufactured in Norway in close collaboration with end-users. The latest technology ensures excellent hearing protection and communication, combined with high durability to meet the demands of extreme environments.

A-KABEL AS

Headset & PTT for ICOM Airband Radios

ICOM A6/A24

Walter Dittel FSG4/5

Working in environments such as offshore exploration helidecks, airports and airfields demands tough, rugged, communications products. Good communications is vital to ensure good workplace safety and downtime is reduced.

The A-KABEL headsets & PTT's are built to withstand the demands of these extreme environments, at the same time ensure operators maintain their personal safety.

- High Attenuation gives excellent hearing protection
- Noise cancelling microphone filters out background noise allowing clear speech transmission
- All metal parts are stainless steel for increased durability
- The headsets are manufactured in modules so every component can be easily replaced
- All cables are manufactured for long life. The coiled leads are tested for 1,000,000 flexions
- External cables and connectors have moulded waterproof strain reliefs
- PTT's have rugged stainless steel crocodile clips for easy attachment to clothing

Models to suit:

PTT's

- ICOM A6/A24 (AK6737W)
- Walter Dittel FSG4/5 (AK5932, AK5932W)

Headsets

- AK5850HS Headband
- AK5850H Headband
- AK5850S Helmet Attach
- AK5850 Helmet Attach

Product code:

Helmet attach: AK5850

Headband: AK5850H

Attenuation data:

SNR=29dB H=31dB, M=26dB, L=20dB

Product code:

Helmet attach: AK5850S

Headband: AK5850HS

Attenuation data:

SNR=30dB H=32dB, M=28dB, L=20dB

AK5850H

AK5932 PTT

Waterproof
AK6737W PTT
