

# CC Supreme Pro MIL-Spec

75332 / 76332

The MSA CC Supreme Pro MIL-Spec level dependent electronic ear muffs protect you from hazardous noise at the same time as you can listen to surrounding sounds. The ambient sound is detected by two microphones mounted on the outside of each cup and reproduced through speakers inside the ear muffs. With two sets of speakers in each ear cup, one for level dependent feature and one for radio communication, it ensures the headset's always has live communication with two-way radio, even if batteries for the 'active' are completely dead.

The MSA CC Supreme Pro MIL-Spec, level dependent headsets are equipped with a noise cancelling boom microphone and a heavy duty down lead. The headset provides high noise reduction yet with a slim design.

## Features

- Equipped with two loudspeaker in each cup, one for level dependent function, one for radio communications
- High amplification of weak sounds
- Two separate, well-shielded microphones for optimum stereo effect and location of sound direction
- Positive, three-button volume and power control
