

# SWATCOM DX

## Repeater System

1. Before proceeding, please ensure that all SWATCOM DX Handsets are fully charged
2. Position the 30m cable in the desired location
3. At one of the cable connect the RED Handset
4. At the other end of the cable connect the GREY Handset
5. Connect the remaining **RED** Handset(s) to the Hearing Protector(s), repeat for the remaining **GREY** Handset(s)
6. Turn on both **RED** and the **GREY** Handsets that are connected to the Cable and the Hearing Protectors (no particular order is required)
7. Ensure that all the **RED** Handsets are displaying **CH:1 KIT: 192**
8. Ensure that all the **GREY** Handsets are displaying **CH:2 KIT: 191**
9. Full-Duplex, Hands-Free communication is now available to all operators.
10. To adjust the volume through the headsets, use the **+** (*plus*) and the **-** (*minus*) symbols on the handset that is attached to the hearing protectors (the volume control on the handsets attached to the cable DO NOT alter the general volume of the system)
