

SWATCOM GK

Modular Communications for Gecko helmets

The SWATCOM GK is a modular headset that easily fits into Gecko helmets, allowing the user to connect to a wide range of wireless full-duplex or wired VHF radio systems.

Gecko helmets are recognised globally as a leading manufacturer of maritime safety helmets which can be adapted to meet the needs of a wide spectrum of professional and sporting industries. Gecko helmets are ideally suited to help keep you safe, warm and comfortable within the marine environment.

SWATCOM GK

Designed by Talking Headsets for the Gecko Helmet range. This easy-to-fit communications device does not impede or alter the design safety features of the Gecko Helmet. The SWATCOM GK fits comfortably into the helmet mounts and provides excellent audio sound quality.

Watertight "Quick Disconnect" connection

SC23-01

SWATCOM GK Boom Mic/Earpiece Quick Disconnect

- Easy installation into Gecko helmets
- Modular waterproof connection to DUPLEX intercoms & VHF Radios
- Lightweight, Watertight and Comfortable

Tactical Communication Systems

2talk Pro-M

Two-user portable intercom, Class 1 Bluetooth, modular handset allows hands-free, full-duplex communication up to 150 metres apart.

- Hands-free communication allows full mobility for both users
- Powered by 2 x AA rechargeable batteries
- Up to 16 Hours battery life
- Rugged design with crocodile clip
- Wide range of other headsets also available

SWATCOM DX

Hands-free full-duplex, lightweight, compact radio communication system. Without base or relay, on a coded network, this is the simplest mobile voicecom which works in a multitude of Marine sectors.

- 3-user full-duplex conference communication
- Licence free
- Range, 1 km line of sight
- IP66/67
- Wide range of other headsets also available

SONETICS APEX

Wireless, hands-free, full-duplex multi-user communications system for marine environments, with simple VHF radio integration.

- From 2 to 60 users in full-duplex conference
- Simple VHF radio integration
- Total freedom to move around the craft
- Adjustable mic-gate to suit all noise environments
- Wide range of other headsets also available

SWATCOM 1

The SWATCOM 1 is a waterproof and dust tight Press-to-Talk (PTT) switch. The unique "Quick-Disconnect" connector allows the PTT to be attached to the SWATCOM GK headset and many different radio transceivers.

- Rugged, waterproof and dust tight
- Works with most make/model of portable radios
- Modular design for easy plug and play operation
- Large, easy to locate Push-To-Talk button
- Wide range of other headsets also available

SWATCOM GK SC23-03-***

Waterproof PTT with direct connection to SWATCOM GK and most popular two-way radio transceivers

- Simple connection to Gecko helmet and radio transceiver
- Large 50mm waterproof Push-to-Talk switch
- Wide range of radio transceiver options
- Rugged, waterproof and dust tight
