

## SWATCOM SAVOX Covert Kits

**Concealed 2-Way Communication**

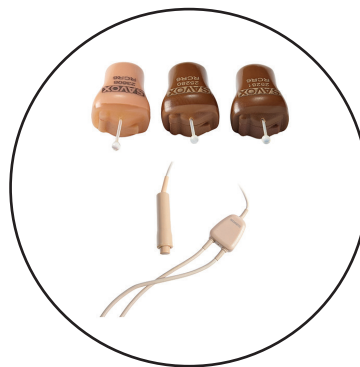

### Industries:

- Police
- Events
- Conferencing
- Surveillance teams
- Corporate hosting media
- Deep covert operations
- Anti-terror
- VIP & Diplomatic protection
- Law enforcement
- Commercial and store security

**And many more...**

**High quality, reliable & concealed communications, perfect for any environment that requires hidden 2-Way communication.**

Our full covert range offers users a subtle and easily concealable communications solution. The Wireless RCR earpieces fit comfortably in the ear and are available with a choice of colours to best match the wearer's skin tone. These earpieces are sold with a choice of either the SEP-110 Neckloop microphone system or the SEP-120 Brooch Microphone System.

**SEP-110 Neckloop:**  
Securely sits around users neck.

**SEP-120 Brooch:**  
Secured by safety clip.

- A modular covert inductive system with in-line PTT
- Inductive options of loop or brooch
- Various earpieces are available
- Ideal for all covert surveillance roles
